● Available for freelance projects

Profile I build software for how Indian businesses and families actually work: GST books, wedding budgets, supply chains. I own a product from the first screen to the database, and I write the tests that keep it honest.

Experience **Software Engineer, Product & Support** November 2025 - Present
Zybra Accounting Software Pvt. Ltd. · An accounting software company.

- Rebuilt the company's public marketing website in Next.js to one-to-one parity with the live site, with lint, unit, end-to-end and build checks on every change.
- Handle technical support for the company's accounting software, working through customer issues.
- Contribute as a junior developer on the company's web projects.

Selected work

Phere · Personal product app.wrklly.in · pherewebsite.vercel.app
A mobile-first wedding finance and planning workspace for Indian families on web, Android and iOS: expenses, installments, vendors, guests, RSVP and e-invites, with an encrypted offline outbox. 345 commits.
React 18, Vite 6, Tailwind CSS 4, Supabase, PostgreSQL, Edge Functions, Capacitor, PWA

QaAgent-Pro · Open source github.com/BAKUGOS1/QaAgent-Pro
A local-first TypeScript and Playwright system that tests CRM applications the way a careful human QA engineer would: 56 deterministic scenarios, a staging-only safety gate and Excel evidence reports. TypeScript, Playwright, Node.js, Vitest, GitHub Actions

Taazu · My own venture taazu.vercel.app · taazu-site.vercel.app
Operations software and a brand website for an electrolyte drink pilot in Ahmedabad: supplier and buyer directories, a task roadmap, a sales and cash log, and a ₹55,000 trial budget tracker. TypeScript, React, Vite, Supabase, Tailwind CSS, PWA, Next.js

Zybra website · Work at Zybra zybra-website.vercel.app
A Next.js App Router implementation of Zybra's public marketing website, rebuilt to one-to-one parity with the live site; every change passes lint, unit tests, end-to-end tests and a production build. Next.js, React, Motion, Tailwind CSS, Vitest, Playwright, axe-core

Skills

Interface	TypeScript, JavaScript, React, Next.js, Vite, Tailwind CSS, shadcn/ui, Framer Motion, Capacitor
